WASHINGTON:

TUESDAY AFTERNOON, AUGUST 19.

TENNESSEE is now the only Whig State in the Union, she having just elected a Whig Governor and a Whig majority in each branch of her legislature, though her delegation in the next United States House of Representatives will stand six Democrats and five Whigs.

The next legislature of the State, which meets in October, will have two Senators to Congress to elect-one in the place of Mr. Hop. L. Turney, whose term expired on the 4th of March last, and the other in the place of Mr. John Bell, whose term will expire on the 4th of March, 1853, before another session of the biennial legislature can be had. The two men to be elected Senators will no doubt be James C. Jones, of Memphis, and John Bell, of Nashville. Jones is the "Lean Jimmy" who twice beat "Little Jimmy" K. Polk for Governor. He removed to Memphis from Lebanon, in the centre of the State, some two years ago, and now bids fair to come to the United States Senate from that end of the State.

West Tennessee, though far ahead of East Tennessee in wealth, paying taxes, &c., has never yet had a Senator in Congress. East Tennessee and Middle Tennessee have had one each, with but two exceptions, since the formation of the State. West Tennessee now claims a Senator, and will most likely have her draft

RISING IN THE WORLD .- When humble men rise to distinction, it is generally because they have qualified themselves for it by constant improvement; but often their wives do not prosure from their elevated position, but realize and impart nothing but mortification. This, however, results from our aping the elegance of European high life. Plain folks of good sense will never be at a loss where plain, rational, republican manners prevail.

There is less advertising done by business men in Washington than in any other city of its size in the United States. The consequence is that more persons do their shopping abroad. They read the advertisements of men of business of other cities, and make out their orders for them. "A penny saved is twopence gained," say our adventurers.

THE PLANK ROAD TO MONTGOMERY .- The Rockville Journal says: "The Washington and Rockville Turnpike Company are about to commence a plank road, to extend from Washington to the Montgomery county line, out by Seventh street. The Montgomery Company will then extend it, for which a charter was granted them two years ago. We congratulate our citizens, particularly those immediately interested in this work, upon the prospect of doubt that a lateral branch will be made so as goods of this house. connect Rockville, and the whole of the trade of the upper section which now goes to Georgetown will be diverted from that market and find its way to Washington. The only way to prevent it will be to make a similar road from Frederick to Georgetown; will it not be done?"

MONTGOMERY COUNTY, MD .- The county tax for the current year is twenty-nine cents on one hundred dollars. This, the Journal states. is a shade higher than last year, owing to additional extra expenditures, among which are the expenses incurred in the case of William L. Chaplin, the negro abductor.

ECONOMY .- A gentleman of our acquaintance saved two dollars by buying a ready-made Summer coat "at cost," as the vender told him. The next day he lost through its pocket a pencil case for which he had paid four dollars, "at cost" also. Loss on buying "at cost," two dollars: and still he has a dowdy coat.

teachers of our public schools, the name of Mr. J. E. THOMPSON was inadvertently omitted. Mr. T. is principal of the male department of the Fourth District school.

MARYLAND CONGRESSIONAL NOMINATIONS .-Hon. Alexander Evans is nominated in the fifth district as the Whig candidate, and Hiram M'Cullough, esq., as the Democratic.

BELL WIRES .- Every house ought to have tubes inserted in the walls through which bell wires may pass. Boring is a great bore, and when done does not look next

There should be placed in front of every post office a lecturer to expound to the people the law and the official interpretations thereof. It is asking too much of the clerks to learn them all, or to make others understand them if they

BRICKLATING .- Bricks are laid dry, and the mortar does not often contain water enough to penetrate them, and consequently often dries without adhering to them. Hence many bad walls.

THE DAY CASE .- The argument before the Criminal Court on the application for a new trial will take place to-morrow.

Police.-Thomas Cushin was yesterday sent to jail by Justice Smith, for passing off some sort of a bogus note for a genuine three dollar bill, and thereby defrauding a poor woman. Officer Wilson made the arrest

Napoleon le Grand and Napoleon the Petit are the two Napoleons. Take our advice everybody, and never wear a great name until you make it so yourself.

THE HUMAN FLOOD .- More than two thousand emigrants arrived at New York on Friday rning, and over twenty-eight thousand the previous week.

The Elections. TENNESSEE .- Hon. William B. Campbell, the Whig candidate for Governor, will probably have a majority of seven thousand votes. The Whigs have also a majority in both branches of the legislature, which will ensure a Whig United States Senator in the place of Mr. Turney, whose term of service has expired. The Congressional delegation will stand as follows. being a Whig gain of one member, as compared with the last Congress:

1st dist. Andrew Johnson, Dem., re-elected. 2d, Albert G. Watkins, Whig, re-elected. 3d, Josiah M. Anderson, Whig, re-elected. 4th, John H. Savage, Democrat, re-elected. 5th, George W. Jones, Democrat, re-elected. 6th, James H. Thomas, Democrat, re-elected

7th, Meredith P. Gentry, Whig, re-elected.
8th, William Cullum, Whig, gain.
9th, Isham G. Harris, Democrat, re-elected.
10th, Fred. P. Stanton, Democrat, re-elected.
11th, Christopher H. Williams, Whig, re-elected.

INDIANA ELECTION.—The Whigs did not elect their candidate for Congress in the first district of Indiana, as has been stated, but have been successful in the tenth district. The delegation in the next Congress will consist of two Whigs and eight Democrats, as follows:

1st district, Andrew Lockhart, Dem. Cyrus L. Dunham, Dem. John L. Robinson, Dem. 2d 8d do. Samuel W. Parker, Whig. Thomas A. Hendricks, Dem. 6th do. Willis A. Gorman, Dem. John G. Davis, Dem.

do.

10th do. Daniel Mace, Dem. Graham N. Fitch, Dem

Samuel Brenton, Whig.

THE THING EXPLAINED .- A Hoosier friend informs us that the defeat of the Hon. E. A. Hannegan by Jacob Tice, a worthy tailor of Fountain county, Indiana, as a candidate for gress in the same way, and derive no plea- the Legislature, was produced by a local question. Mr. Hannegan advocated the retention of the county seat at Covington, whilst Mr. Tice ran as the advocate of Attica, a thriving town ten miles higher up on the Wabash. Jacob, although of Dutch descent, hails, we understand, from Hagerstown, Md. There is nothing like setting history right, even in small things, especially when the fame of as fine a

fellow as Hannegan is involved.

Going Ahead !- G. W. Yerby, known to every one upon whose shoulders dry goods ever hang, has taken into copartnership with him E. P. MILLER, of Jefferson county, Virginia. YEBBY & MILLER will henceforth be great men in Washington, in the esteem of the ladies second only to the editors of the American Telegraph themselves. The season for buying is having it speedily accomplished. We have no just at hand, and so is the splendid supply of

> HUMAN STRANGLING .- We learn that Hiram Bland was hung at Bloomington, Indiana, last week, for the murder and robbery of a man named Walker, with whom he was traveling. Bland, on the gallows, confessed the crime, declared his former statements false, and said he and his brother-in-law murdered a boy some years ago. He died without hope, he said. A large number of women were present, with children, and there was ribaldry and drunkenness in the crowd.

A DILEMMA- Wars Necessary .- Horace Gree ley, since his sojourn in Europe, appears to have become a convert to the physical force doctrine. He says, horrible as war is and ever must be he deems a few battles a less evil than the per-petuity of such mental and physical bondage as is now endured by twenty millions of Italians; and adds:

"When the Peace Society shall have per-suaded the Emperor Nicholas or Francis Joseph to disband his armies, and rely for the support of his Government on its intrinsic justice and inherent moral force, I shall be ready to enter its ranks; but while despotism, fraud, and wrong, are triumphantly upheld by force, I do not see how freedom, justice, and progress, can safely disclaim and repudiate the only weapons that tyrants fear-the only arguments they regard.

Rousseau, Voltaire, Mirabeau, Hamilton, Jefferson, Madison, Adams, and Jay, have done more for the cause of republicanism than all the warriors that ever lived. Warfare asserts what monarchs assert, that power is right. A field has been conquered that is wide enough to convince mankind without a resort to arms. Negotiation will yet free the world.

COLT'S REVOLVERS .- So great is the demand says the Philadelphia Bulletin, for these pistols, that three hundred men and over one hundred thousand dollars' worth of machinery cannot supply the demand. Forty thousand of these arms will be turned out of the factory in Philadelphia during the present year of 1851, and still the supply will fall short of the demand. The demand is so great that Col. Colt will probably have one thousand men at work in a very

"WASHINGTON TRLEGRAPH." - This capital little paper has evidently cut our acquaintance. We haven't seen a single copy of it for mor than a fortnight. Are the wires out of order?

We cannot tell the cause. It has been mailed regularly. We have tried twice in this time to pick a quarrel with you, and thought you had grown priggish.

THE NEXT CONGRESS.—The twenty-s THE NEXT CONGRESS.—The twenty second Congress will be largely Democratic. Of the 62 members of the Senate, 59 have been elected, and of these 35 are Democrats, and 24 Whigs. Two of the Democrats and three of the Whigs are what are called Free-soil. There are three vacancies, viz.: one in Connecticut, one in Tennessee, and one in California. The Legislature of Tennessee, just elected, is said to be Whig in both branches, which of course secures the election of a Whig Senator. The California Senator will probably be Democratic. Connecticut doubtful. Of the 233 members of the House, 191 have been elected of bers of the House, 191 have been elected, of which 110 are Democrats, and 81 Whigs—a Democratic gain of 51. Eight States have yet to elect their representatives, and taking the last Congress as a test of their political characcrats, making the total strength of the two parties in the House stand as follows: Whigs, 91, Democrats, 142. If by any chance the election of President should devolve upon the House, the Democratic candidate will of course House, the Democratic candidate which has be elected. The votes in such a case are given be elected. The votes in such as New by States. Florida counting as much as York, and probably more, as the New York delegation is a tie.

NATIONAL DOMAIN .- A vast accession to the public lands of the United States has just been realized under the treaties concluded by com-missioner Lea with the Sioux Indians. Under the first treaty, twenty-one millions of acres have been ceded by the Upper Sioux, and under the second treaty, sixteen millions of acres have been ceded by the Lower Sioux. The aggregate sum which the Government binds itself to pay for the lands is \$2.800.000. The lands lay for the lands is \$2,800,000. The lands lay along and west of the Mississippi, from the Iowa State line north, to the Falls of St. Anthony, and above that place. "Here," remarks the Galena Advertiser, "is land enough to give a comfortable home to every pauper in the civi-lized world. The advantages that are now of-fered for emigration to this country are wonderful, and means should be taken to advise the world of them."

SUNDAY SERVICES IN CALIFORNIA .- On Sunday, July 13th, in Sonora, the general services of the day opened by the Vigilance Committee giving a Mexican twenty-five lashes for steal-ing a fine-tooth comb. The afternoon services commenced with the performance of the circus; after that a separate entertainment was given to a bull-fight, and ended with giving two persons twenty-five lashes each, for passing spurious gold dust. The Vigilance Committee had punished six persons during the previous week by whipping end branding, and were having a T brand made to enable persons to distinguish between the H. T. (horse thieves) and those engaged in the retail trade.

COLLEGE IN TEXAS .- Rev. Dr. Baker, an en ergetic missionary of the Old School Presbyte rian church in Texas, visited the North last year for the purpose of obtaining the means of erecting a college in that State. He lately reported himself to have succeeded in collecting the handsome sum of \$36,500, with which he proposes to commence the erection of suitable buildings in Austin the present fall.

The statistics of emigration show that during the first seven months of the present year, the arrivals at New York reache 162,592. As compared with the arrivals for the same period in 1850, there has been an in-crease of immigrants amounting to 36,982. In-cluding those who have arrived since the 1st instant, to wit: 16,328, and observing the difference between this number and that referring to the corresponding interval in the previous year, the actual excess of immigration at New York this year over that of 1850 is stated to be no less than 45,403.

THE VIRGINIA CONSTITUTION.—The Charlestown Spirit of Jefferson says that so far as it has been able to ascertain public sentiment in the valley, the vote there in favor of the adoption of the new constitution will be almost unanimous. Accounts from the lower tide-water counties also say "that the more the new constitution is examined, the more friends it obtains."

THE NAVY AGENCY .- As regards the state ments recently made respecting the Navy Agent at this station, we learn from good authority that his accounts were received from the ac counting officers of the Treasury yesterday, and that the balance due to the Government will be paid over immediately .- Portsmouth (N. H.) Journal, Saturday.

HEALTH OF Mr. CLAY .- Henry Clay was, at MAJOR G. TOCHMAN AND LADY arrived in Place. He looked as well and talked with as much vivacity and elasticity of spirit as o vore.

CASTING LEATHER. - A gentleman in Abington, Massachusetts, has invented a machine to grind to powder scraps of leather, which, after being pulverised, are manufactured into large strips, and which become nearly as strong as our common well-dressed leather. A patent has been secured, and this artificial leather will soon be in the market.

JAMES'S LAST .- On a clear, warm morning in JAMES's Last.—On a clear, warm morning in the month of August, 1851, a light, handsome vehicle, drawn by a single spirited horse, might have been seen upon the road in the vicinity of Stockbridge, Massachusetts. The sole occupant of the carriage was a gentleman of perhaps forty-five years of age, of rather full figure and having an unmistakeable English countenance. He seemed much to enjoy the fine scenery around him, and only removed his eyes from it to make occasional amplications to a from it to make occasional applications handsome snuff-box, which he carried in his pocket.

The road gradually became rough, and the traveler, too much engrossed with his box and the scenery, paid little attention to his horse. Suddenly the animal took fright, as his driver blew a vigorous blast on a large silk pocket handkerchief. He set off at full speed, down a rough declivity, and, in an incredibly short space of time, the gentleman might have been seen lying prostrated on the roadside, while the horse and vehicle were speedily out of sight and in Stockbridge. At this juncture two horsemen came in sight, and hastened to raise the prostrated traveler, who gave his name as G. P. R. James. The elder of the horsemen was— (To be continued.)

The solution of the foregoing commencement of a romance by James may be found in the fol-lowing paragraph from the N. Y. Tribune:

SCRIPTURAL MANUAL.—By Chas. Simmons

A SCRIPTURAL MANUAL.—By Chas. Simmons. THE DESIGN of this book is, to furnish proof texts, alphabetically and systematically arranged, on all the important topics introduced in the Old and New Testaments. Great care has evidently been taken in selecting and classifying these texts. They fill a 12mc volume of over 500 pages, arranged under no less than 750 distinct topics, with an average of perhaps half a dozen texts to a topic. The book is furnished with a full index, which greatly increases its usefulness, and is in every respect not only a very valuable kind of work, but undoubtedly the best of its class extant.

Were it generally possessed, carefully studied, and faithfully used, the result would be the introduction of a new rar in biblical knowledge. It is commended to all clergymen, to students, to families, and especially to Sabbathschool teachers. The good paper, fair type, and mechanical execution of the work, are worthy of its contents. The second stereotyped edition of this book, being its twenty-fifth edition (issued in 1850), is a great improvement on former editions, in the number and arrangement of topics. The fact that 41,000 copies of it have been published within a few years, to meet the gradually-increasing demand for it, is a gratifying proof of the estimation in which it is held.
